

SStruct::RemoveNoncomplementary
Pairings

```
graph LR; A[SStruct::RemoveNoncomplementary Pairings] --> B[Error]; A --> C[IsComplementary];
```

The diagram illustrates a branching logic from a central node. The central node, labeled 'SStruct::RemoveNoncomplementary Pairings', is a gray rectangle. Two blue arrows originate from its right side. The upper arrow points to a white rectangle labeled 'Error'. The lower arrow points to a white rectangle labeled 'IsComplementary'.

Error

IsComplementary
